

EDUCATION

University of Toronto Scarborough

Sep 2024–Jun 2028 (expected)

Honours BSc, Computer Science Specialist Co-op — Software Engineering Stream

EXPERIENCE

Incoming Embedded Software Engineering Intern

Fall 2026

Kepler Communications Inc.

- Four-month embedded software engineering work term focused on C and C++.

Software Developer Intern (Backend)

May–Aug 2026

Rocket Innovation Studio

- Developed and maintained C# and ASP.NET backend services supporting mortgage-title workflows.
- Investigated unfamiliar services and data, wrote unit tests and test plans, reviewed code, and supported controlled delivery.

Vice President of Technology

Aug 2025–Present

UoT CREATE Club

- Lead technical planning and mentor a small development team across club software projects.
- Lead backend and infrastructure development for CodeClash using Django, React, PostgreSQL, Docker, and C++.

Undergraduate Teaching Assistant

Sep 2025–Aug 2026

University of Toronto Scarborough

- Led tutorials, labs, and office hours for systems programming, data structures, and discrete mathematics.
- Assessed programming work and exams with attention to correctness, design, and clear feedback.

Undergraduate Researcher

May–Sep 2025

University of Toronto

- Reviewed and categorized literature on oral examinations in computer science education.
- Presented at the 2025 UTSC CMS Undergraduate Research Symposium; co-authored an ITICSE 2026 paper.

Firmware Developer — Flight Software

May–Aug 2025

University of Toronto Aerospace Team

- Developed embedded C firmware and tested CAN bus communication between simulated CubeSat subsystems using STM32 boards.

SELECTED PROJECTS & LEADERSHIP

CodeClash Platform

2025–Present

Technical lead · Backend and infrastructure developer

- Developing a reusable game-bot competition platform with a Django API, React frontend, PostgreSQL, Docker-based services, CI/CD, and a C++ execution layer.

Robotics Club Co-founder and Instructor

2022–2024

As-Sadiq Islamic School

- Developed an introductory robotics curriculum and mentored a six-student team recognized with a Best Engineering Design Award.

TECHNICAL SKILLS

Languages: C, C++, C#, Python, Java, TypeScript, SQL, HTML, CSS

Software: ASP.NET, Django, React, Vite, PostgreSQL, Docker, Git, Linux, REST APIs

Systems: STM32, CAN bus, CI/CD, testing, data structures, object-oriented design

RESEARCH & RECOGNITION

Oral Examinations in CS — A Systematic Literature Map. Co-author, ITICSE 2026.

International Scholar Award. University of Toronto Scarborough, 2024.
